

JARDIN DES MONTS

INFUSIONS

Taste for all seasons.

Our garden above the clouds

Welcome to Jardin des Monts...

When we first fell under the spell of this rundown farm in 2009, the gardens were all but abandoned and overtaken by nature. Our goal has always been to maintain their natural beauty and purity whilst taming them a little.

The remote location of the gardens did not hold us back, knowing that anything of value requires effort. Mother Nature made this the perfect place for growing some of the finest aromatic herbs and medicinal plants. So, as a team, we rebuilt the old farmhouse and cleared the paths.

Today, we continue to walk the gardens, nurturing and growing the perfect, all-natural ingredients we use in our ranges.

Hand-crafted perfection

We make finest quality products by hand.

Cultivating and harvesting our plants by hand allows us to know exactly when they are ripe and ready. Hand-picking ingredients ensures only the right part of the flower, or leaf, is selected and gently plucking, so only their natural goodness goes into our recipes – with no stems or unwanted foliage to dilute or contaminate.

The preparation of our products is also handmade: petals and leaves for our infusions are sieved to ensure only the finest ingredients are used to create perfectly balanced product ranges and unique flavours.

We maintain traditions inspired by herbalism to create products of exquisite quality that are... simply better.

Natural, Like Me

We are uncompromising when it comes to ensuring that our products are natural and organically certified, giving you complete confidence in our quality. All the herbal and medicinal plants used in our product ranges are grown in our gardens, so we personally know their source and history – traceability is a mere walk along the terraces and paths surrounding our flowerbeds.

We do need support with ingredients that cannot be produced in our garden, like the sugar in our candies. For this purpose, we source ingredients from accredited organic farms to meet the exacting standards of quality assurance and organic certification.

Energising infusion, indulgent candy, or a refreshing syrup: we guarantee our products are as nature intended.

Our Edelweiss and masterwork ranges are NaTrue accredited whilst all our products are organically certified.

Time To Care

We take our time so you can live life to the fullest, confident that you have the finest, all-natural ingredients for your wellness.

Our time is shaped by the seasons. In the spring, we climb the rocky steps to peel away the layers of straw that protect our plants and prepare the soil to sow and plant our gardens.

In the Summer we harvest the plants, selecting and picking them individually like fruit, only when ripe and ready. To capture all of nature's goodness, we waste no time drying the flowers for our range of infusions or use the of freshest ingredients in our syrups and confectionery.

In the Autumn we prepare our product ranges. Stems and unwanted leaves are discarded so that only the best parts of the flower are selected, then sieved and blended into our infusions.

When the mountains are blanketed in snow, we cover our flowerbeds with straw and begin re-designing the garden for the following season, rotating the crops.

And then the Spring comes around once more..

Infusions

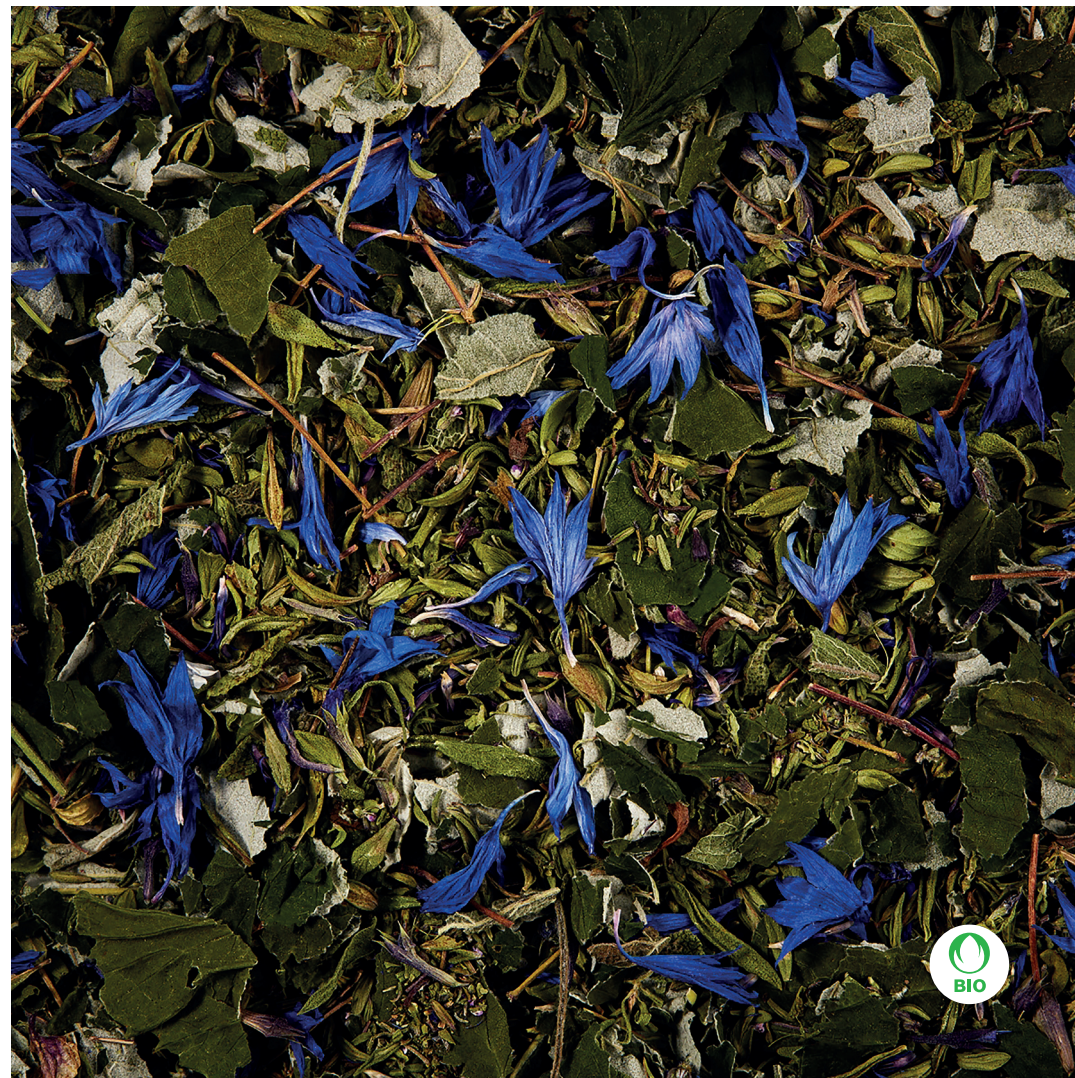

Moments of Pleasure

Our herbal infusions are blended using environmentally-friendly, organically certified ingredients to enhance moments throughout the day.

Each blend is distinct, crafted with our own unique recipes. We harvest our ingredients by hand at the perfect point-in-time to capture all their goodness. The drying process takes place at a temperature of 32°C to prevent oxidation, capture the taste and enhance the colour of our infusions. Ingredients are separated to eliminate impurities while our team works to ensure enough volume to produce an intensive aroma.

Each harvest is different from season to season. Flavours may therefore vary a little from year to year, as they do in nature, but are always packed with goodness and taste..

Make a new discovery with every change in season.

MORNING

An energizing tonic of herbal and medicinal plants. Ideal for a good start to the day.

Ingredients: Nettle, Fir tree bud, Moroccan mint, Lemon Thyme, Savory, Sunflower.

Bag of 40 g

Not advised for children under the age of 3,
nor for pregnant or breast-feeding women.

A warming, wholesome balance of herbal flowers and medicinal plants for a cozy moment of cocooning.

Ingredients: Lemon Thyme, Thyme, Raspberry, Hyssop, Sage, Cornflower.

Bag of 45 g

Not advised for children under the age of 3,
nor for pregnant or breast-feeding women.

From organic farming.

Syrups

Capture the Freshness of the Day

Producing our range of syrups is an exciting process that takes place over a 24-hour cycle to fully capture the freshness of our ingredients. In the morning we select and cut fresh herbs and flowers, before we rush them down the mountain to our micro-plant in Rossinière. We then gently simmer the ingredients at a precise temperature to extract the aroma while preserving their extraordinary quality. The mixture is left to cool naturally in the evening, and through the night, then filtered to extract the juice the next morning, before sugar is added around noon. Pasteurization follows quickly to preserve all health-promoting benefits. We add no citric acid or preservatives.

Our product range boast distinct, beautifully balanced flavours and aromas. Their natural ingredients are revitalising, relaxing and soothing, filled with authentic goodness.

Indulge a little and feel your best.

LEMON THYME

A light, citrusy tang with an inspiring, herbal finish.

Lemon Thyme is mixed with organic sugar to give this syrup a delicious, all-natural herbal and lemony flavor. Enjoy hot or cold when added to the drink of your choice, or with goat cheese.

Bottle of 3,3 dl

No citric acid or preservatives added

SPEAR MINT

Refreshing with a sweet menthol aroma, great for the digestion.

Spearmint is combined with organic sugar for an all-natural light, minty freshness. Enjoy hot or cold when added to a drink of your choice or mix in with a little fruit salad.

Bottle of 3,3 dl

No citric acid or preservatives added

WILD THYME

A boost to the system with a distinct, enjoyable herbal sweetness.

Wild Thyme is added to organic sugar to create an all-natural syrup with a unique twist that will be relished by gourmets. Enjoy hot or cold when added to the drink of your choice for a moment of cocooning.

Bottle of 3,3 dl

No citric acid or preservatives added

PEPPERMINT

Energizing menthol that settles the moment. Peppermint is blended with organic sugar for an all-natural, intensely minty flavour with restorative benefits.

Enjoy hot or cold when added to the drink of your choice, or as a light digestive after a meal.

Bottle of 3,3 dl

No citric acid or preservatives added

ELDERBERRY

Uplifting and warming honey-sweetness that is packed with goodness.

Elderberry is cooked together with organic sugar to provide an all-natural fruity flavour. Enjoy hot or cold when mixed with water or add to champagne and white wine for something a little different.

Bottle of 3,3 dl

No citric acid or preservatives added

LEMON NEPETA

Aromas of lychee provide a calming flavorsome combination.

Lemon Napeta is combined with organic sugar to reveal bright, light and citrusy flavours. Enjoy hot or cold when added to the drink of your choice, or drizzle over a salad.

Bottle of 3,3 dl

No citric acid or preservatives added

Confectionery

Sweet Goodness

Each of our confectionery recipes uses a balanced combination of mountain plants and all-natural essential oils to create a distinct product range that will help support you through the day.

Like our syrups, the freshness of the ingredients is captured in just 24 hours. The herbs and flowers are gently simmered at a temperate of 80° C, without overboiling to avoid compromising the flavour. The mixture is cooled in the evening and through the night, then filtered to extract the juice in the morning. Sugar is added at noon, quickly followed by pasteurization. We add no citric acid or preservatives.

Enjoy some sweet goodness.

LEMON THYME & SILVER FIR

A rare combination of citrusy herbal Lemon Thyme, blended with the clean and refreshing notes of Silver Fir to be upliftingly different.

Connoisseurs of all ages will love these soft and delicious organic sweets made of mountain plants and essential oils.

Tin 50 g

SPEARMINT & PEPPERMINT

Invigorating peppermint is rounded with the sweetness of Spearmint to be fresh and energising.

Connoisseurs of all ages will love these soft and delicious organic sweets made of mountain plants and essential oils.

Tin 50 g

NEPETA & ELDERFLOWER

Light aromas of lychee and rose combine with the honey-notes of Elderflower for a sweet goodness throughout the day.

Connoisseurs of all ages will love these soft and delicious organic sweets made of mountain plants and essential oils.

Tin 50 g
